

Letter to companies

We are writing this from **Awaken India Movement (AIM)**, which is an informal organization of tens of thousands of informed individuals throughout India who have been alerting their fellow Indians about the **countless and never-ending lies of the official covid narrative**. Please feel free to visit **awakenindiamovement.com** to learn more and awaken yourself.

It has come to our attention that your organization may be encouraging its employees to get jabbed by the experimental covid19 injections, which are based on **dubious safety and efficacy studies**. This is not only against the Indian constitution and the law of the land, **but is going to lead to ever-increasing deaths and suffering in the coming weeks and months**. As per the official vaccine reaction surveillance systems of the US, UK and EU, **tens of thousands have already died and millions have suffered alarming adverse events**. Off late, even mainstream media and social media have begun reporting on the sudden increase in fatal heart attacks in injected people including well known public persons and sports personalities, who seem to be dropping like flies.

Apart from a huge spike in sudden deaths post-injection, **people around the world are suffering from sudden and unusual conditions** such as Myocarditis, Pericarditis, Anaphylaxis, Bell's palsy, Heart attack, Thrombocytopenia/Low Platelet count, Severe Allergic Reactions, Shingles, Autoimmune conditions, and cancer.

In addition, we hope that you are cognizant of the fact that face coverings and sanitizers (that are full of chemicals) are both detrimental to health. Social isolation far from being any health-boosting measure is killing people around the world on a daily basis. **No science is required to realize that wearing face coverings severely restricts the intake of oxygen and results in re-breathing of carbon dioxide and toxins – all these are detrimental to one's physical and mental health. We are writing this to request you to strongly discourage such inhuman practices.**

One useful link:

We are also writing this to ask you to refrain from tracking covid19 vaccination status, advertising and recommending these injections to your employees and their families. **Please note that failure to do so could result in legal notices being served on you.** A typical legal notice would look like this – you may check the information in the attached document.

Finally, and most importantly, **we are always available to explain and present various facets of the truth (including the planned end game) to your association.** Please feel free to call us and we can arrange awakening session(s).

Sincerely,

Awaken India Movement Team
