# Child Vaccine Alert !!

- Children's vaccination drive in India is announced without following the process of Medical Informed Consent.
- Medical Informed Consent involves compulsorily declaring in the vaccine consent form itself the following info - **vaccine safety data, complete list of ingredients, side effects of the ingredients, and advisory on contraindications.**
- Avoiding Medical Informed Consent is a **violation of the Nuremberg Code** on bioethics of human experimentation.
- Clinical trials (that too involving **only a small number of seronegative healthy kids**) **are still ongoing in India!** There are **no short- and long-term safety studies.** These injections could **permanently damage your child.**
- **Millions of adverse reactions, including death, have been reported** in official databases worldwide. Visit [www.vigiaccess.org](http://www.vigiaccess.org). Is it wise to inject your child with a vaccine containing GMOs and other toxic contents?
- Sero Surveys show children in India have been exposed to Covid, and almost all have acquired natural immunity
- By signing the vaccine consent form, you agree to have your child injected by an Experimental Vaccine that is **not yet fully approved by any health body in India or abroad.**
- Vaccination is a voluntary activity. **Your body is your own property.** This right is protected by our Constitution.
- In a reply to the Supreme Court in Dr. Jacob Puliyel's case on 28.11.2021, **Government of India categorically stated that Covid-19 vaccination is VOLUNTARY.**
- In cases **of illegal vaccine coercion, please visit a doctor for a Vaccine Exemption Certificate.** Please see the vaccine factsheets for the list of conditions that make your child ineligible for this vaccine.
- In the Covid era, there have been **next to no reports of children being affected** and the reasons have been explained in detail by numerous prominent scientists across the world.
- Choose safer methods to prevent Covid-19 - AYUSH Ayurveda Protocol, Anandaiah Protocol & Homeopathy Protocol.
- Schools aiding the children's vaccination drive have a legal liability [www.awakenindiamovement.com/iba-letter-to-schools](http://www.awakenindiamovement.com/iba-letter-to-schools)
