I am unvaccinated and I am the safest person

To,

(Kindly write the name, rank and address of the govt officer visiting your house)

Dear Sir/Madam,

I refuse to take covid-19 vaccines because of the following reasons -

1. NO INDIVIDUAL CAN BE FORCED TO BE VACCINATED

1a. As per Supreme Court Order in the case of **Jacob Puliyeel Vs. Union of India 2022 SCC Online SC 533**, Decided on 2nd May, 2022,

Point 89 (iii) With respect to the infringement of bodily integrity and personal autonomy of an individual considered in the light of vaccines and other public health measures introduced to deal with the COVID-19 pandemic, **we are of the opinion that bodily integrity is protected under Article 21 of the Constitution and no individual can be forced to be vaccinated.**

1b. The ratio laid down by the Constitution Bench in Common Cause Vs. Union of India (2018) 5 SCC 1 is binding to all cases of vaccine mandates and any direct or indirect force to get vaccinated are prohibited. It is choice of every person to refuse to get vaccinated. No one can force them. It is integral part of his fundamental right under Article 21 of the Constitution and no law in future cannot be brought to take away this right. Article 13 of the Constitution is clear on this point.

2. NO SERVICES OR BENEFITS CAN BE RESTRICTED TO THE UNVAXED

All mandates issued by all Government and private bodies which discriminates between vaccinated and unvaccinated and which restrict any benefit or Services to unvaccinated people are proved as illegal, unconstitutional, arbitrary and violative of **Article 14, 19 & 21 of the Constitution of India**. Now no one can be compelled to produce RTPCR Tests only because he is not vaccinated. The status of vaccinated and unvaccinated is held to be the same. [Para 58 of Jacob Puliyel Vs. Union of India 2022 SCC OnLine SC 533.

3. VACCINATION IS VOLUNTARY, NO NEED TO SHOW VACCINATION STATUS TO ANY AUTHORITY AND BEFORE ADMINISTERING THE VACCINES

INFORMATION OF ADVERSE EFFECTS TO BE PROVIDED

In a recent affidavit (link provided below) dated *13th January, 2022* submitted before Supreme Court on behalf of Union of India which is affirmed by *Dr. Veena Dhawan, Joint Commissioner (UIP) in the ministry of Health & Family Welfare, Government of India,* it is once again made clear that:

(i) The vaccination is voluntary and no one can be given a vaccine against his wish.

(ii) No one should be required to carry & show the vaccination certificate to any authority.

(iii) It is the duty of person giving vaccine that, before giving vaccines each person should be informed about adverse side effects of vaccines.

4. NO DIFFERENCE BETWEEN VACCINATED AND UNVACCINATED PERSONS - BOTH CAN TRANSMIT EQUALLY IF INFECTED

As per Supreme Court Order in the case of **Jacob Puliyel Vs. Union of India 2022 SCC Online SC 533**, decided on May 2nd 2022 the following points are pertinent;

“60. We have already referred to the material placed by the Union of India and the States appearing before this

Court. While there is abundant data to show that getting vaccinated continues to be the dominant expert advice even in the face of new variants, no submission nor any data has been put forth to justify restrictions only on unvaccinated individuals when emerging scientific evidence appears to indicate that the risk of transmission of the virus from unvaccinated individuals is almost on par with that from vaccinated persons. To put it differently, neither the Union of India nor the State Governments have produced any material before this Court to justify the discriminatory treatment of unvaccinated individuals in public places by imposition of vaccine mandates. No doubt that when COVID-19 vaccines came into the picture, they were expected to address, and were indeed found to be successful in dealing with, the risk of infection from the variants in circulation at the time. However, with the virus mutating, we have seen more potent variants surface which have broken through the vaccination barrier to some extent. While vaccination mandates in the era of prevalence of the variants prior to the Delta variant may have withstood constitutional scrutiny, in light of the data presented by the Petitioner, which has not been controverted by the Union of India as well as the State Governments, we are of the opinion that the restrictions on unvaccinated individuals imposed through vaccine mandates cannot be considered to be proportionate, especially since both vaccinated and unvaccinated individuals presently

appear to be susceptible to transmission of the virus at similar levels.

5. NATURAL IMMUNITY IS BETTER THAN VACCINE IMMUNITY

5a. My natural immunity has dealt with whole Sars-Cov-2 virus and it is scientifically proven that T cells and B cells Memory last 15 to 20 years. As per Dr Sanjay K Rai, community disease expert and chief epidemiologist, AIIMS, New Delhi - **Naturally cured persons does not transmit the infection, in fact they are much better than vaccinated people. The natural immunity developed due to cure from Covid infection or due to contact with the virus is more robust and 13 times better than the vaccines. Such person are safest in the world. They cannot get infection and they cannot spread infection. They cannot die with Covid-19.** Total 81 studies across the world had proved it.

5b. Noted epidemiologist Dr. Jayaprakash Muliylil, who is a core member of the National Technical Advisory Group on Immunization (NTAGI) and Chief Adviser ICMR agrees that **vaccinating a confirmed Covid-19 recovered person doesn't have any additional benefit "but there is some small chance of adverse reaction."**

He added, **"At present, the available evidence suggests that natural infection is superior to vaccination.** So, in retrospect, it is a good and convenient way to say who needs vaccination and who doesn't."

(b) The naturopathy fluid diet therapy of **Dr. Bishwaroop Roy Chowdhury 3 step Flu diet** and recommended by National Institute of Naturopathy, Pune. Said treatment is free of cost.

The observations of **National Institute of Naturopathy, Pune** are as under;

“The enquiry report submitted by National Institute of Naturopathy of Ministry of AYUSH, Government of India regarding result of successful treatment of Covid-19 patients without any side effects.

This is a report of some initial data gathered across a single center of Ahmednagar district; where people availed only Naturopathy treatment voluntarily for a week’s time period from their day of COVID confirmation and were successfully treated.

None of the cases took any medication for long term due to other systemic illnesses- like Diabetes, HTN or arthritis etc.

None of the cases took any medication for COVID.

No case reported of any untoward incident or adverse reaction to their fasting experience in Nature cure regime.

Overall it can be concluded that; in all these cases; Nature cure therapy was successful as a regimen for the COVID cases. This can serve as model for the successful handling of all mild to severe cases of COVID and also as a

preventive intervention in all the future cases.”

(c) Ivermectin

Uttar Pradesh - Claiming that timely introduction of Ivermectin since the first wave has helped the state maintain a relatively low positivity rate despite its high population density, he said, “Despite being the state with the largest population base and a high population density, we have maintained a relatively low positivity rate and cases per million of population”. Agra District Magistrate Prabhu N Singh also attributed the state’s relative success in keeping the Covid numbers down to the timely nod to the use of Ivermectin as a prophylactic.

The Yogi-led state has also been registering a steep decline in the number of Active COVID Cases as the figure has dropped from a high of 310,783 in April to 8,986 now, a remarkable reduction by 97.10 percent."
