1. <u>Vaccine Murders / Injuries and Vaccine Agenda</u> - Vaccines, for Bill Gates, are a bogus philanthropic strategy that feed his vaccine-related investments (including Microsoft's ambition to control a global vaccination ID) and grant him dictatorial control over global health policy.

- In India, the Bill & Melinda Gates Foundation (BMGF) has funded Serum Institute of India and Bharat Biotech to produce Covid vaccines which are experimental, do not stop infection or transmission and have resulted in thousands of adverse events and deaths.

- In 2009, an NGO named PATH funded by BMGF had conducted illegal and unlawful clinical trials of HPV vaccines on 32000 tribal girls in Andhra Pradesh and Gujarat which resulted in 7 deaths and hundreds of devastating side effects. The case is being heard in the Supreme Court of India.

- Over 4.9 lakh children in India developed paralysis between 2000 and 2017 derived from the BMGF supported oral polio vaccine.

- In 2010, across seven African countries, the BMGF funded malaria vaccine trial was responsible for 151 deaths and serious adverse effects such as paralysis, seizures and febrile convulsions in 1048 infants (out of 5949 administered) A similar story emerged from Chad, where 50 infants (out of 500) who were vaccinated for meningitis developed paralysis.

- Gates is planning to build gigantic factories in India to provide mRNA (vaccines) for subsequent pandemics. Further, vaccines for existing diseases are also in the pipeline.

- BMGF has donated more than \$21 million towards developing a vaccine technology that uses a tattoo-like mechanism which injects invisible nanoparticles under the skin. This is now being tested as a Covid vaccine.

2. <u>Population Control/Eugenics</u> - Bill Gates has been an advocate for not only population control but population culling and has been funding many family planning and sterilization programs worldwide.

- In India, BMGF has been providing "support" to the Family Planning Division, MoHFW and Government of India to bring down fertility rates in states like UP, Bihar, Jharkhand, Rajasthan, Madhya Pradesh and Chhattisgarh. Thousands of innocent women have suffered the most barbarous sterilization abuses as a result of this program.

- In 2014, tetanus vaccines that had been administered to 2.3 million females in Africa by the WHO (largely funded by Bill Gates) and UNICEF had been contaminated with the anti-fertility hormone hCG. It was reported that more than 5 lakh of them had become infertile following this program.

3. Anti-Nature, Anti-Life Agendas - Gates is funding many technologies that are anti-human and anti-nature, and that will threaten our very existence on this planet.

- 'Gain of function' research (to make an existing virus more virulent) is illegal in the United States, yet Anthony Fauci and Gates have found ways around that, by funding labs in Wuhan China and using the already existing U.S-funded biolabs in Ukraine.

- Gates has been investing billions of dollars in technologies that enable reduction or removal carbon dioxide from the environment. This disturbs natural balance.

- Gates has invested in a start-up that produces artificial breast milk. Off late, you may have noticed articles revolving around discomfort, difficulty and apprehensions associated with breast feeding. They end up demonizing breast milk and doctor your mind into accepting this lab-made product.

- Gates has investments in the GM giant Monsanto (now Bayer) that creates GMO seeds and patents them. He wants to ensure that no one has access to original seeds and wants to force them into using GMO seeds that have disastrous effects on human health. He has also been investing in lab-grown meat.

4. <u>Digital Tracking and Artificial Intelligence</u> - End to end survelillance and the death of privacy.

- Gates has funded ID2020 that has set out to link every aspect of your life to a single digital identity that will ensure we are trapped in a digital prison forever.

- The Gates-backed start-up EarthNow aims to provide a real-time video feed of nearly any place on Earth to governments and 'business customers'. The satellites will also have "machine intelligence," meaning they can "interpret" what they are seeing to aid surveillance. This will bring an end to any semblance of privacy that we currently enjoy.

5. Jail is where he belongs - Gates has committed and is continuing to commit, innumerable crimes against humanity.

- In 2017, Government of India had decided to sever all ties with BMGF following medical malpractices. Yet, he managed to gain a backdoor entry in India in 2019.

- In Oct' 19, BMGF (and others) hosted Event 201 that accurately predicted just about every aspect of the Covid pandemic and response to it, weeks before the actual breakout. This has led to a lot of suspicion regarding his intentions.

- World's first Vaccine Murder case against Bill Gates and Adar Poonawalla has been filed in Mumbai High Court in 2021 following the death of a young man after taking the Covishield vaccine.
