

Yohan's Resource Recommendations

These are the websites and resources that have helped me tremendously over the last 7 years of my research.

If you are interested in my guidance or personal consultations in any of the areas of my expertise listed below, which include holistic health/functional medicine and nutrition science, law, finance, banking & Bitcoin, extraterrestrial life, spirituality, geopolitics, new world order, anarchy and more, I am available for personal consultations which cost Rs. 2000 for 1hr. If that's something you are looking for, email me on yohan@anarchyforfreedom.in

When doing research, use your own discernment, judgement and intuition. Don't worship any researcher or blindly agree with their conclusions. I personally disagree with some conclusions of the people I respect the most in this field. You won't find the entire truth in any one place, as researchers have their own slants and biases that we need to do our best not to fall for, so we can analyse the truth as objectively as possible for ourselves. The lists are in no particular order. It might seem extensive but I have only selected the sources that have earned my respect for the credible work they have put out over the years.

1) My Top 5 favorites :

- Wes Penre (www.wespenrevideos.com) (Read the Wes Penre Papers in entirety before you die if you are interested in exiting the matrix)
- David Icke (www.davidicke.com , www.ickonic.com) (Would recommend reading his books and watching his all day lectures, rather than watching his interviews. All his lectures are available on www.ickonic.com)
- Mark Passio (www.whatonearthishappening.com <https://www.youtube.com/c/MarkPassio>) (Watch Marks Podcasts in order, from number 1 till the current one. His Natural Law seminar is a must watch. I also have Marks Ark Drive, something which I had to spend a lot of time and money to acquire. It contains 1TB of the best books, videos, documentaries, etc on all the subjects discussed in my seminar. If you want to acquire this, you will have to take me up on a private consultation because this is something I will have to physically pass on to you on your device which will take a time commitment on my part)
- Foster Gamble (www.thrivemovement.com , www.thriveon.com) (The thrive movement website has some of the best well referenced and cited blogs on all new world order subject areas. Thrive on is one of the best subscription services out there in my opinion that I would recommend signing up to. Would recommend watching both parts of the Thrive Documentary as well.)
- James Corbett (www.corbettreport.com) (Would recommend going through all the videos on this link - <https://www.corbettreport.com/bestof/>)

Just going through the work of these 5 alone can take you many years, and going through the work of all the researchers they reference will take you your entire life and more.
