

COVID was a stepping stone for the elites to unleash New World Order (NWO)

COVID Scamdemic : The Grand Lie

Since 2020, our world has changed in unthinkable ways. Never before in history was there such a full-fledged assault on human rights in the form of mandatory testing, mask wearing, lockdown, quarantine and forced vaccination.

All this was approved and propagated under the false claims of keeping people. The basic premise of this lie was - asymptomatic transmission, causing hundreds of thousands of sudden deaths in otherwise healthy adults. Myocarditis/Heart Attacks/-strokes, Cancers, autoimmune disorders and other fatal health issues have become a norm due to the vaccine.

What is New World Order (NWO)?

NWO is a plan for full spectrum dominance and control of every human being on this planet. New World Order is also referred to as Agenda 2020, Agenda 21, Agenda 2030, Agenda 2050, The Great Reset, The Global Reset, One World Order, One World Government.

Agendas of the New World Order

UNSDP2030 : The UN blueprint to transform the world is best captured in its 17 Sustainable Development Goals (SDGs). It is important to note the UN and its allied agencies like WHO, World Bank, IMF, FAO are merely tools of the Globalist elites to launch the NWO. The reality of the SDGs behind the apparent propaganda can be summed up as - wipe out the lower class, introduce more GMOs, force vaccinations, indoctrinate via education system, destroy family unit, privatize and ration water resources, implement 5G smart grid, slave labor, create more debt and tax for the populace, drive population from suburbs into prisonlike mega cities, carbon taxes, privatize ocean and create a coercive police state, globally.

For more information on the real intent behind SDGs, refer to the AIM white paper on NWO - <https://awakenindiamovement.com/new-world-order-summary-white-paper>

Cashless Society : The cashless society is about so much more than just how we pay for things at the store. Tied into a system of persistent technological surveillance, it represents the ultimate control over our lives. In a cashless society, the government can virtually dictate what you can or cannot pay for, and if you don't agree with the government diktats, your accounts can be frozen in no time (remember the frozen bank accounts of people who merely crowd-funded the truckers convoy to Ottawa in 2022). The demonetization of 2016 was essentially a push in the direction of going more digital and less cash usage, which when tied with a biometric ID like AADHAR allows big banks and governments to freeze anyone's assets, particularly those standing up against state sponsored tyranny.

ID2020/Global Digital Identity : ID2020 is a global public private partnership founded in 2016 by GAVI, The Rockefeller Foundation, Accenture, Microsoft and IDEO with other high profile members such as Mastercard and MercyCorps. Facebook too has joined the alliance, with a mandate to have digital identification for every human on this planet. AADHAR is a similar scheme, which is becoming mandatory day by day. The ultimate goal of this endeavor is to microchip the entire world population with an RFID chip with unique ID number linked to information in an external database, such as personal identification, law enforcement, medical history, medications, allergies, and contact information. This invasive technology has the potential to be used by governments to create an 'Orwellian' dystopia.

Geo-engineering : By definition, Geo-engineering is the deliberate attempt to control weather by creating rainfall, drought, hurricanes, steering atmospheric river, hailstorms or changing the Jetstream flow pattern, artificially. The endgame with Geo-engineering, like all other agendas of the NWO, is full spectrum dominance of the planet and the people. Geo-engineering has been, and will be used for depopulation via extreme weather events (creating flash floods, tornadoes, cloudbursts and mega storms etc), by manipulating and eventually destroying the natural water cycle and rivers which will decimate agriculture in targeted regions. Spreading diseases via chemtrails (as has been reported with Morgellon's disease and neurodegenerative disorders caused by aluminum and other heavy metals in chemtrails). India has all the usual fingerprints of Geoengineering as seen in other NATO countries, and is one of the very few countries on the planet to house HAARP like facility (under the guise of National MST Radar Facility) at Gadanki, AndhraPradesh.

Engineered Food Crisis : As evident globally, the world is inching towards a catastrophic food crisis. Public food production around the world is now collapsing due to fertilizer costs, shortages, diesel price inflation, export bans and engineered droughts and floods. The endgame here is to move all citizens to a food rationing system, which will be administered via biometric ID system tied to vaccine passports, shoving compliance down the throat of everyone, else bar them access to food. In addition, the elites are pushing for more synthetic food, supplements, GMO to replace natural organic foods, in an effort to degrade the health of the citizens

Engineered Economic Crisis : Creating debt traps, pushing tyrannical measures for both pandemics and climate change break the economies. Generalized vaccination issued to create biometrically linked digital identities for surveillance through 5G networks of smart cities. Everyone is put on government welfare, food stamps and housing subsidies to make them obedient slaves to a global government. Universal basic income will be introduced for basic essentials like food and medicine . With rising inflation, reduced asset valuation and mass layoffs in the coming years, economic independence of the common man will be hijacked and they will succumb to the digital ID system.

5G : As much as the mainstream narrative would make us believe 5G is for the people to enjoy high speed internet, it is in essence a tool to create the dystopian surveillance state. 5G also causes bio-toxicity which can manifest as respiratory, neurodegenerative or reproductive illnesses.

1. It is time we question the mainstream media . Do your own research. Get news from alternative sources.
2. Take responsibility of your health and food. Grow own food or source from natural farmers to encourage and sustain them
3. Use natural food and clean water, follow healthy lifestyle to keep away from diseases, and thus expensive pharmaceutical treatment
4. Buy locally and encourage use of cash.
5. Demand answers from the government via RTIs and PILs on Chemtrail and geoengineering activities.
6. Avoid (if possible) big data platforms like Google, Facebook, YouTube, Twitter as they censor truth regarding the above agendas . Use alternative platforms like Bitchute, Odyssey, Rumble, Telegram, Brighteon etc.
7. Follow thought leaders and researchers spreading the truth and share the message with your friends and family.
8. Expose the agendas. Create awareness among public. Organize grassroots level movements in your area to build resistance. Join us in this fight to create freedom and be on the right side of history
