Commissioner / Public Works Department, Building Department / Bio Diversity
Department / Local ward officer / Gram Panchayat / Gram Sevak/ Zilla Parishad
Head / Panchayat Samiti Head etc

Subject: Information required regarding planes flying overhead and spreading chemicals for Performing citizen's duty under Article 51A of the constitution

We, Awaken India Movement (AIM), would like to introduce ourselves as a group of concerned citizens, comprising of eminent personalities and professionals, scientists, bureaucrats, surgeons, doctors, advocates, judges, industrialists, professors, corporate and education professionals, celebrities, enlightened youth and senior citizens from all over India.

We, from different parts of the city, have been seeing planes regularly flying in the sky and emitting fumes which don't fade away easily. We came to the conclusion that chemicals are being sprayed in the sky as these trails do not look like regular fumes / contrails and stay in the sky for hours together or the entire day. The patterns sometimes look like clouds but they are not natural clouds. We have been observing this phenomenon for more than two years. We also observed the frequency of chemical spraying increasing over the years. We have Pictures and Videos clicked by us in _____, _____, _____, _____ etc areas.

We earnestly request your esteemed self to please clarify the following:

1. What are these smoke trails that we are seeing in the sky?
2. What is the purpose of these planes?

3. What material is being sprayed in our skies (our guess is, it is concoction of heavy metals)?
4. Who has authorized them?
5. Do you have any research documents available for public on this grave matter?

We as citizens want answers as we fear, they are affecting our health and well-being.

In light of the above it is kindly prayed that this information be shared immediately and the spraying of Chemicals in our skies be urgently terminated so that it does not continue to cause harm to the life of the residents.

Yours Truly,

Team Awaken India Movement
