

WARNING!

5G - A HEALTH APOCALYPSE

Many scientists state that cell phone radiation is harmful – 5G will add to this harm

Progression of Wireless Technologies – 5G is a Huge Jump from 4G

The jump from 1G to 4G has been gradual. From the above image you can see the bandwidths in which it operates. However, 5G is proposed to add bandwidths of 24-28 GHz and even higher bandwidths in the future. Thus, 5G is a huge jump in technology that we will be exposed to, whether we like it or not. **As per RTI replies by the Government of India, there are no long-term safety studies of 5G on human bodies and on nature such as bees and birds.**

Wireless Technologies is Associated with Loads of Health Issues

Impact on Humans

Even before 5G, excessive exposure to wireless technology is proven to cause severe health problems!

- Brain Cancer
- Breast Cancer
- Irregular Heartbeats
- High Blood Pressure
- Insomnia
- Infertility
- Tinnitus – ringing in the ears
- Mental Health Problems
-and many more

Irregular Heart beats

Fatigue & Insomnia

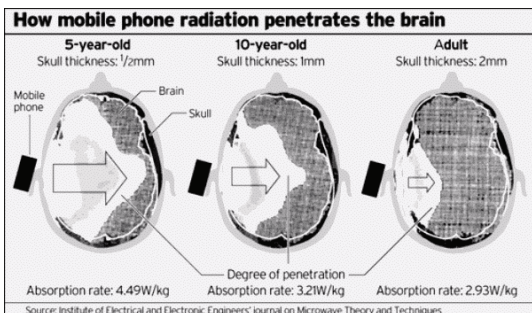

Mental Health

Nausea & High Blood Pressure

Cancers & Tumours

Children's Brains – At Risk of Damage

- Children have thin skulls and small heads.
- Radiation can penetrate more deeply into their brain.
- Younger people have more cells that are dividing rapidly and tissues that are growing, and as they have a longer lifespan ahead of them there is more time for cancers to develop.

STOP 5G ROLLOUT

DOWNLOAD this letter and submit to appropriate public authorities in your area such as Public Works Department, Department of Telecommunications, Biodiversity, Panchayat and Municipal Corporations.

Millimeter Waves – Military Grade Technology

Today's cellular and Wi-Fi networks rely on RF-EMR microwaves – a type of electromagnetic radiation utilizing frequencies up to 6 gigahertz (GHz) in order to wirelessly transmit voice, text, image, Internet or video data.

However, 5G envisions the use of wide swaths of new spectrum bands in higher frequency ranges from 600 MHz to 86 GHz and higher, utilizing millimeter and sub-millimeter waves – to allow ultra-high rates of data to be transmitted. The more data transmitted, the more RF-EMR exposures of people.

The Department of Defense USA has developed a RF-EMR crowd-control weapon called the **Active Denial System (ADS*)**. The ADS works by firing a high-powered beam of 95 GHz waves at people – that is, a millimeter wavelength weapon – similar to millimeter waves being used for new 5G installations.

Anyone caught in the RF-EMR beam will feel like their skin is intensely burning. The burning sensation stops once the target leaves the beam. This weapon operates on 95GHz waves and 5G will operate on the very similar frequencies

FACT SHEET
ON ADS

Microwave Syndrome

Symptoms of microwave syndrome are headache, fatigue, insomnia, depression etc. Previously healthy people develop microwave syndrome after installation of 5G base station near their home. These symptoms disappear after moving to another location that is not exposed to 5G.

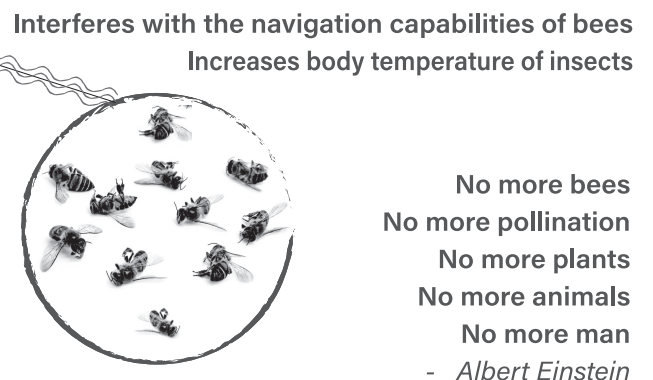

Have you heard of Havana Syndrome?

5G Kills Bees

5G Kills Bees and Harms Birds. Electromagnetic radiation such as 5G disrupts the navigational capabilities of bees and prevents them from reaching their hives. Similarly electromagnetic radiation disrupts the navigational capabilities of migrating birds.

No more bees - No more Man

Comprehensive Scientific Studies of Harmful Effects of Electromagnetic Radiation are available.

- **EMF-Portal** lists nearly 30,000 studies
- **Bio-Initiative** reports by many researchers across countries has catalogued the health effects associated with 5G and millimeter waves
- Letter to the US Federal Communications Commission from **Dr. Yael Stein** MD in opposition to 5G spectrum Frontiers

Rajasthan High Court Judgement

Holding mobile towers as a health hazard, the Court in a judgement dated 27.11.2012 (PIL Petition No.2774/2012 and Petition No.8697/2012) directed telecom service providers operating in the state to remove their towers falling in the vicinity of schools, hospitals and play grounds.
